ROBERT GOST MONTOLIU

FULL-STACK DEVELOPER | WEB & APPLICATION DEVELOPMENT

Tokyo, Japan | Spanish / EU citizen | Open to software, web and junior full-stack opportunities

PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience developing and maintaining digital products for a marketing company, including a web platform and a custom application. Familiar with the software development lifecycle, frontend and backend implementation, API integration, database work, debugging and responsive web development. Brings a strong problem-solving mindset, practical technical troubleshooting experience and a reliable, collaborative approach developed across both software and automotive environments.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Marketing Company **Jul 2024 - Jul 2026**

Developed and maintained the company website and a custom application, delivering practical digital solutions aligned with business and marketing needs.

- Worked across web and application development, including frontend and backend-related tasks.
- Supported API integration, data handling, debugging, testing and ongoing maintenance.
- Considered usability, responsive design and UI/UX for user-facing features.
- Translated business requirements into technical tasks and improvements.

Automotive Industry Experience | Midas, Audi & Ford **2017 - 2024**

Held hands-on technical and team-responsibility roles, including workshop leadership and parts logistics. Developed structured diagnosis, troubleshooting, customer communication, prioritisation and dependable execution under pressure.

TECHNICAL SKILLS

Programming	Python, Java, SQL, JavaScript, TypeScript, HTML, CSS
Development	Full-stack and web development, application development, frontend and backend implementation, debugging, testing
Tools & platforms	Git, Linux, VS Code, Node.js, Xcode
Additional focus	REST API integration, database fundamentals, responsive design, UI/UX, software problem-solving

EDUCATION

Bachelor's Degree in Computer Engineering **Completed 2026**

Universitat Oberta de Catalunya (UOC). Relevant areas: software development, data structures, databases, distributed systems and web technologies.

Advanced Vocational Training in Automotive Mechanics | Monlau, Barcelona

LANGUAGES & PROFESSIONAL STRENGTHS

Languages: Spanish (Native), Catalan (Native), English (Fluent), Japanese (Basic / improving)
Strengths: Problem-solving, adaptability, teamwork, initiative, attention to detail, reliable execution

Currently based in Japan and improving Japanese, with an interest in long-term professional growth in the Japanese technology industry.
